

Southwest Oral & Implant Surgery Fact Sheet

About Southwest Oral & Implant Surgery:

Southwest Oral & Implant Surgery is a full-scope oral and maxillofacial surgery practice with a special focus on wisdom tooth removal, dental implants and intravenous (IV) sedation. With offices in Houston and Sugar Land, Texas, the practice is comprised of Dr. Michael K. Eklund and his dedicated, experienced and caring staff.

About Dr. Eklund:

An award-winning surgeon, Dr. Eklund believes each patient is unique and deserves specialized care in a comfortable environment. Meshing his intense knowledge, experience and skill, with today's techniques, he delivers modern technology with old fashioned care. Throughout his 34-year career, Dr. Michael Eklund has placed over 6,000 dental implants and removed over 100,000 wisdom teeth. He has received [numerous awards and honors](#), including the Greater Houston Dental Society Cooksey Award. He also placed the first temporary anchorage device (TAD) in the world in 1983 – a procedure that generated a profound paradigm shift in how skeletal anchorage could be used for dental implantology and was the basis for many of the procedures used today.

Philosophy:

At Southwest Oral & Implant Surgery, we believe that a healthy smile plays a crucial role in our patients' overall physical health and mental well-being. Armed with the latest oral surgery technology and over three decades of experience, Dr. Michael Eklund can dramatically improve oral health, and in turn, improve quality of life.

Customized Treatment:

Dr. Eklund partners with general dentists to develop treatment plans that are based on the patient's best interests. Dr. Eklund takes the time to thoroughly explain all recommended procedures, anticipated results, any risks associated, costs, and alternatives so that his patients can make an informed decision. Patients are encouraged to ask questions and become a partner in their oral care.
